And it is difficult to foresee whether any emergency that would require us to operate upon portions of the sum proposed to be invested is likely to arise during the next twenty years — during the whole of which period our Capital will remain locked up, but even in such cases the loss is not likely to be great. As against this, there is the sure prospect of our getting Rs 42,000 odd every year by way of interest and this ought to be a great help in helping us to meet any extraordinary expenditure that may arise. To invest 7½ lakhs subject to such a risk appears to me to be better than to refrain from doing so out of a sense of caution and on prudential considerations.

15 The sum of 7½ lakhs includes Rs 81,600 called out of the funds of Temples as their Contribution to the General Fund and it is hearing interest at 5 per cent having been invested under the Charitable Endowment Scheme. It will be a great help if the Financial Secretary Chelsea may

This investment will bring in a handsome return by way of interest every year. & this will be a very welcome addition to the Mungoni Resources. The Finl. Secy. may be consulted if no one has time. If the sum of 7½ lakhs represents the permanent savings of the institutions there can be no objection to its investment in the loan. If from any unforseen cause there should be ~~any~~ necessity to realise a part of the investment there is not likely to be any great difficulty in disposing of it and there is therefore no reason to fear that the investment means the "Lock up of capital".

21 If the balance of the General Muzrai Fund is in the form of cash and if the arrangement of permanently investing it under the rules for charitable endowments has not been brought into effect this amount may also be invested in the loan.

22 But for the proposed investment a large part of the savings of the Muzrai institutions would remain as part of treasury cash balances and earn no interest. Considering the fact that the bulk of the amount which would otherwise have remained idle will be allowed interest at 6¼% by Government and considering also the fact that the balance of the General Muzrai Fund will be allowed 6¼% interest instead of at 5% as already ordered, I think that the annual grant allowed by Government for the construction and repair of Muzrai institutions may be withdrawn hereafter. I believe it is one of the objects of the General Muzrai Fund to provide for the repair of institutions and the increased income which the proposed investment on behalf of the institutions brings

brings should render the need for Government help unnecessary.

2b There is a holding of Rs.1,000 in War Bonds of 1928. These bonds are accepted as subscription to the loan and they may also be tendered for conversion if necessary.

Although the proposed investment may be made in the aggregate, it is quite necessary as pointed out By Mr. Mrityunjaya Iyer in his note dated 21st instant ~~xxx~~ to maintain a separate account showing clearly the extent of interest of each institution in the total investment. Otherwise it will be impossible to keep complete accounts of individual institutions or to ascertain the income from the aggregate investment belonging to each institution.

INVESTMENT OF MUZRAI FUNDS.

From the information furnished by the Comptroller, have been compiled the following classified statements of Muzrai Funds--invested and held in cash.

I. Funds at the credit of each of the Rest Houses.

C — III. .. Private Chattrams, under Government management.

W. X. Invested and cash surplus by Districts

U XI. Funds forming General Muzrai Fund.

V. XII. Invested and cash surplus at the credit of the several classes of Institutions.

The statements are appended for reference. flagged as above.

2. From the statements, it willbe seen that the total of Muzrai Funds held at the end of June 1920 is Rs.18,18,773-11-11

as detailed below:--

	General Muzrai Fund.	Held at credit of Institutions	Total.
I. Invested:-			
(a) 3% Government of India.	2,000	2,500 0 0	4,500 0 0
(b) 3½ ..	3,33,100	2,70,190 6 0	6,03,290 6 0

II. In cash (f)		10,33,388 5 11	10,33,388 5 11
Total	4,94,700	13,89,078 11 11	18,83,778-11-11

3 Of the above items I (a) (b) and (c) cannot be made available for investment in the New 6¼% State Loan.

4 As regards (d) the whole of it might be transferred to the New loan under the provisions of Para 2 of the Government Notification No. Fl. 1488/ G.F. 289-19-77 dated 20th August 1920.

5 In regard to the Muzrai Funds amounting to Rs.10,33,388-5-11, the *following are the details:--*

Rest houses.	Rs.40,062- 6-4
Govt. Anna chattrams	40,780-14-8
Private chattrams under Government management	54,714-10-4
Temples Major	3,20,054-11-4
.. Minor	4,92,830- 5-1

Mahomedan Institutions Major.	4,194-9-11
.. Minor	17,738-6- 7
Matts	61,666-0-10
Miscellaneous	1,346-4-10
Total.	10,33,388-5-11

6. While the investment of this surplus will substantially enhance the resources of the Institutions by yield of interest on the invested sum, there is the other consideration that large sums in cash will be required for periodical repairs and other essential requirements of the Institutions; and it will not therefore be convenient to lock up much the surplus in paper for 20 years to come

7 There are however several institutions which have already accumulated large surplus which may not be required for a good time to come; the funds of these institutions may be invested without inconvenience.

8 In regard to the cash balance, the Comptroller has maintained accounts of individual institutions in respect of all except those classed as minor for which only the Taluk totals are entered in his books. It is not now possible to say how much of the Taluk total belongs to a particular institution.

9 In investing this surplus at the credit of the Minor Institutions or any portion thereof, it is however very

necessary to fix the amount belonging to the several individual Institutions, as otherwise complications will arise ~~now~~ ~~may in the distribution of the interest but also~~ in regard to the exact uninvested cash balance left at the credit of any particular Institution when question of funds available arises in connection with requirements for repairs etc. At present the Taluk accounts in this respect are also in extreme confusion. I ~~append~~ Scale. ~~herewith~~ a separate note on the subject for consideration and orders.

10 For purposes of the present question of investment of the surplus, a certain percentage of the total balance at the credit of the Institutions may be reserved and the balance invested.

11 In regard to Major Institutions, the amount of surplus of each that may be invested is yet under correspondence with the District Officers. It may take some time before these details are finally fixed up.

12. In the meanwhile as the time fixed for subscribing for the loan expires by the end of the current month, I would submit that the amount that may be spared for investment may be at once tendered as a lump sum leaving the distributions thereof by institutions to be worked out and fixed later on. On a rough calculation, I venture to submit that a sum of Rs. 4,58,400 out of the total cash

balance of Rs.10,33,388-11-11 may be safely spared for investment without prejudice to the requirements of the Institutions for 20 years to come.

13 As regards the amount of Rs.81,600 held in 5% endowment for the General Muzrai Fund I beg to submit that this endowment was formed very recently under Government Order No.1103-13--Muz.599-18-2 dated 28th September 1919 out of the surplus of Muzrai funds held in cash.

14 Strictly speaking the investment under the endowment rules is open only to private gentlemen desiring to form a permanent endowment for the benefit of the Charities established by them. But the present endowment has been formed as an investment of the Muzrai Cash Balance to find funds out of the interest for the repairs of the institutions, the Engineering Establishment and the Agama schools. The investment in 5% was only accidental, because, that was the only advantageous investment open at the time. If matters had waited for a few months more, the money could have been invested in the New 6¼% loan. In these circumstances I beg leave to submit that the Muzrai Fund of Rs.81,600 now held in 5% endowment may be transferred to the New 6¼ loan.

15 To sum up, the moneys proposed to be

& subsequent papers on the subject (Pl 7)

invested in 6¼ loan are:-

Rs.1,60,000	now held in 5½%	State loan.
4,58,400	out of cash balance.	
81,600	now held in 5%	
Total. Rs.7,00,000		

16 The additional money required for the conversion of 5½% loan into the New loan will be separately paid out of the cash balance.

17 This is in addition to the Muzrai Puduvat Funds now held in the Savings Bank. Information as to the extent of such funds has been called for from the several Districts, and it has not been received from all. The question will be submitted for orders immediately on receipt of complete statements from all the Districts. For the present, the amount that may be available for transfer from the Savings Bank to the New Loan may be estimated at Rs. 50,000/-.

18 The Financial Secretary has written demi-officially enquiring how the question of adjustment of Muzrai balances in the New loan now stands. If the proposals above submitted are approved, the Financial Secretary may be at once informed that a sum of Rs. 7,50,000 (Seven and a half lakhs) may be assigned to Muzrai Institutions in a lump sum, reserving the distribution thereof among the several Institutions to be fixed later on.
